

Iowa Testing Programs

## Iowa Online Writing Assessment Research Event—Spring, 2018

### Invitation to Participate

Iowa Testing Programs invites you to participate in the final validation phase of an expanded assessment of the Iowa Core. Next year, Iowa Testing Programs will be offering a new evidence-based writing assessment with online delivery, immediate feedback and Iowa Core domain reports.

In preparation for this offering, the final validation phase of this research project will collect student responses using the online system in Spring, 2018. Students (Grades 3 – 11) participating in the study will be asked to read and evaluate multiple sources of information and respond to a single writing prompt. Approximately 45 minutes (or a class period) of testing time is required.

In appreciation for participating in the study, a credit of \$10.00 for each student response will be applied to your invoice for administering the *Iowa Assessments*. In addition, participating schools will be provided access to a range of writing scores shortly after their student responses are scored.

We hope you consider this opportunity. To sign up, please contact David Henkhaus at ITP:
